

# The Goal

In its work to provide support to those affected by end of life experience, Crossroads Hospice Society has experienced, first hand, the healing power of nature.

From rooftop sanctuaries to community gardens, Crossroads Hospice Society has found a way to integrate nature into its' compassionate focus.

With your help, and in partnership with the City of Port Moody, we will build a labyrinth-style healing garden adjacent to our Inlet Centre Hospice, on the grounds of Pioneer Memorial Park in Port Moody, BC.

## Connecting Communities

This labyrinth healing garden will tie our area to over 3,000 labyrinth gardens world-wide. It will become a link to the Trans Canada Trail and a welcome respite for tourists and weary travellers.

# Labyrinths

## The Story

A labyrinth is an ancient form found in cultures around the world. Labyrinths are known to have existed as far back as 2000 BC. A labyrinth is often confused with a maze. While mazes are like puzzles, a labyrinth has only one path to the center. This single path can symbolize the journey of our life.

## Inner Peace

Walking the labyrinth garden path is a meditative, purposeful discipline. Walking a labyrinth can still the mind. There is trust in knowing the path will direct and lead you to your destination. A labyrinth is a powerful tool for reflection and peace.

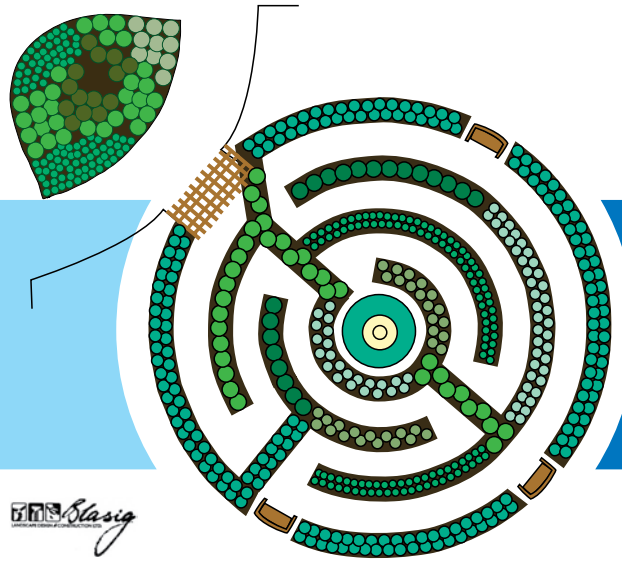

## Healing Journey

Crossroads Hospice Labyrinth Healing Garden will be an integral part of our expanding grief and bereavement support programs. It will also be a place where people can come together to share in a healing journey.
